### **DETAILED ACTION**

This is the first non-final office action in response to Applicant's submission filed on 10/03/2003. Currently, claims 1-51 are pending.

#### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-48, drawn to an open community model for exchanging information, classified in class 705, subclass 500.
  - II. Claims 49-51, drawn to method, apparatus and medium for creating and implementing an open community model, classified in class 705, subclass 10.
2. Inventions (I) and (II) are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, subcombination (I) has separate utility such as work coordination and communication among project team members. See MPEP § 806.05(d).

Inventions (I) and (II) are related as subcombinations disclosed as usable together in a single combination. The subcombination is distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, subcombination (II) has separate utility such as the configuration an open community model. See MPEP § 806.05(d).

The examiner has required restriction between subcombinations usable together. Where applicant elects a subcombination and claims thereto are subsequently found allowable, any claim(s) depending from or otherwise requiring all the limitations of the allowable subcombination will be examined for patentability in accordance with 37 CFR 1.104. See MPEP § 821.04(a). Applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).

3. A telephone call was made to Applicant's Attorney of Record on (650) 424-0100 on June 16, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.
